

FUEL PURIFIER 700

PRODUCT NUMBER:

FP 700

PRODUCT DESCRIPTION:

The RCI Technologies patented fuel purifier is a one-step unit that removes up to 99.8% of free water and up to 95% of other heavy contaminants that are found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated during transportation and storage. Unlike many other products on the market, the RCI Technologies fuel purifier performs this function without the use of a replaceable, changeable, or cleanable filter element or cartridge. By removing contamination immediately before the fuel enters the engine's filter system, you can keep your fuel clean, preserve fuel quality, and extend the life of your equipment.

The FP 700 is designed for highway, off-road heavy-duty and marine equipment. Especially useful where additional contaminant storage capacity is desired.

PRODUCT FEATURES:

Product	Universal Fuel Purifier
Model	FP 700
Nominal Flow	7 GPM (26.5 L/min)
In & Out Couplings	3/4" NPT
Top Port	1/2" NPT
Sensor Port	1/2" – 20 Straight Thread
Heater Port	1/2" NPT
Drain Port	1/2" NPT
Drain Valve	1/2" M-F brass valve
Height	16" (406.4 mm)
Width	4 1/2" (114.3 mm)
Gross Weight	11 lbs. (incl. mfg. hardware)
Sump Capacity	40 oz.
Finish	Polyester Black Powder Coat – 35 to 40 gloss
Options	Water Sensor Kit Heater Element
